Our Prep Ready to Start School Transition Program is extensive!

It includes many opportunities for kinder children to experience learning in a larger setting than that of a kinder. Children participate in a wide variety of activities, meet teachers, meet children from other kindergartens, develop their responsibilities and learn about school and its routines. It also provides our teachers with an insight about the children, their strengths and their needs. Most importantly, the transition process aims to develop a positive outlook about starting school and building confidence.

Pre-school children starting school in 2017 are invited to join our Ready to Start School Transition Program. This program is designed to ease your child into school and support their transition into prep. Discovery sessions are friendly, relaxed, interactive and supervised by prep teachers and staff.
